

Create a flow chart

Directions: The Goal is to create a flow chart of scientific breakthroughs that occurred during the Scientific Revolution. You may use the internet and your book to assist you in finding information for this task. The website below will allow you to create the flow chart using technology.

<https://www.lucidchart.com> and click "try it." Keep in mind that you are only allotted 60 characters (symbols/arrows/pictures) in the free flow chart app.

LUCIDCHART GOOGLE APP TUTORIAL BY WITS

<http://youtu.be/5eg95vBDTpk>

Scientific thinkers

1. William Harvey
2. Nicolaus Copernicus
3. Andreas Vesalius
4. Galileo Galilei
5. Isaac Newton

The flow chart must include the following sections for each scientific thinker. Each section must be described using full sentences.

Sections

1. Traditional belief before Scientific Revolution
2. The scientist's daring idea
3. Scientist's observations that supported the daring idea
4. Reaction from community towards the daring idea/discovery
5. The lasting impact of the daring idea /discovery

When you are done print out your flow chart and turn it in to your first hour tray.
